The following description represents the subject matter of both the California real estate salesperson and real estate broker license examination. This description contains seven major areas of real estate subject matter: 1) Property Ownership and Land Use Controls and Regulations, 2) Laws of Agency and Fiduciary Duties, 3) Property Valuation and Financial Analysis, 4) Financing, 5) Transfer of Property, 6) Practice of Real Estate and Disclosures (Includes Specialty Areas), and 7) Contracts.

When changes in the law occur, or changes in the practice of real estate take place, new subject matter is added to one or more of the seven major areas. Thus, the areas are revised and brought up to date on a regular basis. There is no assurance that a specific test will cover all subject matter listed, because the test merely samples the broad field of real estate.

Because there are differences in the level and amount of knowledge required of salespersons and brokers, the exams differ in their emphasis and difficulty.

### Area 1 — Property Ownership and Land Use Controls and Regulations

*Approximately 15% of exam*
- Classes of Property
- Property Characteristics
- Encumbrances
- Types of Ownership
- Descriptions of Property
